

Strategies for hard markets - Asia

June 18, 2024

Hard markets typically mean higher revenues and can sometimes forge leading careers in reinsurance broking. Higher bars for performance, can also raise the stakes.

[Understanding DC Advisors' preferences](#)

June 18, 2024

Recordkeepers face a complex challenge in addressing both the explicit and implicit preferences of DC Advisors. Advisors often say they prioritize factors like recordkeeping compliance, communications, participant services, and technology. However, the real drivers of their decision-making tend to be related to strong support in sales and practice management.
